

The Dare Game :

Critique and Limitations of The Dare Game :

While The Dare Game : provides valuable insights, it is not without its shortcomings. One of the primary constraints noted in the paper is the restricted sample size of the research, which may affect the universality of the findings. Additionally, certain variables may have influenced the results, which the authors acknowledge and discuss within the context of their research. The paper also notes that expanded studies are needed to address these limitations and explore the findings in larger populations. These critiques are valuable for understanding the framework of the research and can guide future work in the field. Despite these limitations, The Dare Game : remains a valuable contribution to the area.
